Author M.W. Devers has been crafting stories since childhood, drawing from a lifelong love of reading that began at age three. The idea for *Woods & Wings* took root during a family vacation to a theme park, and he's been dedicated to bringing it to life ever since, beginning in 2022. This is his first published work of fiction.

MWD enjoys the quiet magic of early mornings spent world-building and shaping characters, all from his home in New Braunfels, Texas, where he lives with his family.

Woods and Wings

Woods & Wings Series, Book One

She never sought the path of a hero.
Destiny had other plans.

In the peaceful village of Rhigov, where traditions hold sway, fifteen-year-old Astraya Myna dreams of little more than escaping the confines of her kitchen duties. But when a malevolent force known as Vronti shatters the village's tranquility, Astraya is thrust into a journey she never imagined.

Guided by a legacy she barely understands, Astraya joins forces with her brother, Raustra, and a small band of allies. Together, they embark on a dangerous quest to protect their home from wingroans—dragon-like creatures whose powers are as formidable as their intentions are mysterious.

As shadows of betrayal and hidden truths close in, Astraya navigates a world where loyalty is tested and power proves both elusive and dangerous. With each step, she uncovers more about her family's past and her own untapped strength, until she must decide: how far will she go to save her people and what is she willing to sacrifice to discover the truth about herself?

Woods & Wings is a tale of resilience, courage, and the unbreakable bonds of family. For fans of *Shadow & Bone* and *Seraphina*, *Woods & Wings* offers a journey through a layered fantasy world, with deeply personal stakes and the pull of hidden destinies.
